milk chocolate | toasted marshmallow | black tea

Looking for just a good everyday drinker coffee? Here it is - House Special. Built on a base of our premium Colombia beans for easy approachability and for that wonderful inviting Colombian aroma! Our roastmasters have crafted this blend primarily from Latin American beans with just a splash of Indonesia to round out cup qualities. Like a well toasted s'more the cup is well balanced with good milk chocolaty nuance as the primary feature along with nuance of black tea, and dark toasted marshmallow. The medium sweetness is perfect for black coffee lovers but also lends itself really well to cream and sugar additives. Makes a good cup on a regular drip brewer but can also perform on Aeropress or French Press if you like it strong.
