Blue Moon Espresso - Hey they say it happens only “once in a blue moon”. That is how we designated this espresso after formulating and testing it. We wanted an espresso crafted around Bali Blue Moon’s overwhelming rich deep syrupy body character and this is it! This espresso is for those who like it strong intense full bodied, loaded with deep earthy, dark chocolate, syrupy notes, laced with baking spice, with round nutty tones throughout. The espresso roast does a lot for developing its depth of character, the dark chocolaty notes, and its rich syrupy nature. It extracts the kind of espresso shots you want when making high milk volume drinks like cortados, lattes, cappuccinos. For those who like it strong.
