Bear Claw Mountain - ruggedly steep treacherous terrain inhabited by large native bears and other mysterious mountain creatures. Bear Claw pastry on the other hand speaks of sweetness, caramel, and pecans. Our Bear Claw Mountain coffee brings these two types of extreme together in one cup. It is rugged mountain bear like strong with deep rich dark chocolate notes, vibrant spicy nuance of cedar and baking spices, with nuance of caramel and nuts like pecans and almonds, with a sweetness almost like a sweet drizzle over the top. This all makes for a full bodied cup with lots of depth and rugged personality while showing no bitterness but nice caramelly nutty sweetness in the lingering finish. Best at full city roast to develop character.
