Caramel Macchiato - a coffee drink known for rich caramel and vanilla notes “usually with added flavor or syrups”. Our Caramel Macchiato coffee blend has no flavoring, no additives, only good fresh naturally occurring caramel and vanilla nuances achieved by choosing the right beans then pairing a perfect roasting style for a much healthier version of the popular drink and now you can easily make it at home and you can add just the right amount of any sweetener or cream if so desired. Natural taste nuances of caramel, vanilla, and chocolate. The caramelly leading edge is round and savory, good well balanced chocolaty body notes with a nice fresh vanilla note in the smooth finish. Crafted for a lighter roast to develop a more caramelly character.

NET WT 16 OZ | 1 POUND | 453 G
