wild raspberry | sugar waffle cone | vanilla

Natural Chambord Black Raspberry - No additives, just natural bean nuance working together to create a flavor profile similar to the flavored liqueur. For this blend we choose beans with natural nuances to create a sharp winery liqueur-like flavor loaded with notes of wild raspberries, sugar waffle cone, and vanilla. The high acidity carries the coffee with an unmatched brightness and an intense vibrancy while the berry notes make up the heart of the coffee. Hints of vanilla waft through the midst as it finishes with sort of a sugar waffle cone finale. It is a pleasant dynamically vibrant spirited cup of coffee. Great solo or with a splash of cream.
