Natural Hazelnut Drizzle - completely natural bean flavors that naturally taste like a sweet hazelnut drizzle. People are always asking for Hazelnut taste so we formulated this blend from beans just bursting with natural hazelnut flavor nuance. Taste nuances of hazelnut, candied apple, and honey dance in the cup. The coffee is round and sweet in structure with a clean taste and a lingering sweet hazelnut in the pleasant aftertaste. Easy to drink, with good natural hazelnut nuance that should satisfy most hazelnut lovers. We like it at medium roast for sweetness and round mouthfeel. Brew it anyway you like it. This coffee is naturally sweet so it may not need sugar but a splash of cream will blend well if so desired.
