Natural Jamaican Me Crazy - No additives, nothing but natural bean nuance at work here. This is our 100% natural version of the popular Jamaican Me Crazy flavored coffee drink but we use no flavorings. We carefully selected a proprietary blend of beans that naturally possess many of the target taste notes. Then roast them on a specific medium roast profile to develop all those delicate nuances and sweetness. Bursting with natural tropical fruit notes, vanilla, and spice. You can almost taste a hint of coconut in the finish. Nuance of pineapple, dragon fruit, mango and banana, with a bit of a caramel and baking spice in the mix. Full bodied with a little earthy edge that seems to set it off just about right.
