Winter Carnival - natural bean nuances that bring to mind a winter wonderland. Like a beautiful bright snowy landscape dotted with yellows, reds, and browns with a few red berries shining forth this coffee blend has a beauty all of its own. Bright energetic citrus acidity laced with dried fruit notes and a velvety clean mouthfeel throughout. Nuance of cranberry, lemon, raspberry, white chocolate, and wild honey with a light clean finish. Pairs nicely with a lighter roast to develop a little more body and creamy chocolate notes. Crafted from African and Central American beans to be a bright clean coffee with delicate fruit notes.
