Javarra Espresso our signature blend but what does the name mean? This blend is comprised of mostly of Java beans plus Ethiopian Harrar beans to create a classic espresso that is very well balanced. It is incredibly smooth clean tasting with a depth of richness that goes... wow! Tastes of mocha, dried fruit, toasted nuts, and cacao nibs meld together in a brown sugar like sweetness. The leading edge has hints of dried blueberry and lavender adding excitement to the cup. This blend is especially enjoyed by the “espresso purists” those who like only espresso and frothed milk with no syrups. The natural flavor of this blend is sufficient for an outstanding latte without anything else added. Best at roast range from Blonde to Full City Roast.
