cocoa nibs | toasted marshallow | pecan

Looking for a crowd friendly coffee? Look no further, our Coffee Social blend was created to accomodate guests. It is a clean tasting coffee with medium acidity and a smooth finish. The soul of the coffee is rich in depth, with nuance of fresh roasted cocoa nibs, and the taste of dark brown toasted marshallow, like the kind you get toasted to perfection around a campfire on a leisurely evening with friends, and finishes with a bit of southern pecan, similar in taste to browned pecan pie just out of the oven. Designed for drip and perc brewing at a crowd pleasing medium roast profile. When choosing a coffee to serve for social events our Coffee Social has proven to be a great choice.
