Country Roads - For those whose hearts are in the beautiful country side the winding peaceful roads are a retreat, a place of beauty, a place that feels like home. This coffee is kindave like that, it has a warm comfortable refreshing feel to it with beans coming from Nicaragua and Africa. It is a light tasting coffee with nice milk chocolate tones from the Nicaraguan beans and a bright sweetness from African beans.

This makes for a refreshing cup of complexity with vibrant citrus acidity, medium body, and light finish. Nuances of cherry limeade, milk chocolate, black tea a little raspberry in the clean finish. This blend has a roast range from city to full city roast depending on personal taste preferences. Brew as drip, pour over, or espresso. Comfortable like Country Roads.
