**DATE ROASTED**

Ahhh, the taste of the tropics. Fruity, sweet, bright taste, perfect over ice. That is what this coffee is all about. Bright lively acidity with an abundance of fruity nuance like blueberry, raspberry, and apricot. It is juicy and tangy throughout with an overwhelming fresh clean sweet taste almost like a good iced tea. This blend was designed for those iced drinks. It is really good without cream or additives just as stand alone black coffee iced. Featuring beans from Africa and Latin America it is best when roasted at lighter roast levels and is particularly suitable for our Light Roast.
