toasted pecan | chocolate | waffle cone

Our Cozy Blend was created for those cold blustery winter days. It is a coffee to curl up with by the fire. Here chocolaty goodness meets nutty depth to create a well balanced cup. Like a warm blanket warding off the cold. Like the crackling of the fire warming both the hearts and the hands around it this coffee has a cozy character. Unflinchingly rich and smooth. Plush nuances of toasted pecan, milk chocolate, and waffle cone. With its low natural acidity this coffee will blend nicely with cream and/or sweeteners of choice. Created to shine out at medium roast level and good for standard drip or percolator brewing methods. This coffee makes a cup good to cozy up with on cold winter days.
