nutty chocolate | caramel | dried fruits

The holiday season is a time of togetherness and of peace, love, and joy. A time to catch up with family and friends to enjoy time together. Special treats are brought out and enjoyed during this time and one of them is - our Holiday Blend coffee! For this blend we start with traditional South American beans for their deep nutty chocolaty notes. To this our roast masters blend in a few other beans to ultimately craft a blend that is special. A coffee that is perfectly suited for the rich holiday season! Featuring deep rich nutty notes, nuance of caramel and chocolate, laced with dried fruit nuances. Like a box of Christmas chocolates with good things in the centers this blend takes good coffee and adds in a splash of dried fruit nuance for a festive sizzle.
