sweet lemonade | blueberry | toasted marshmallow

More Please - Now here is a coffee you just can't get enough of. You keep seeing the bottom of the cup and refill it but then all too soon it is out again. That is what happens when you blend prime grade Ethiopian beans with Brazilian beans the resulting taste keeps you saying - More Please. It is a favorite coffee with a juicy body character, clean and bright, with moderate acidity and complexity. Nuance of sweet lemonade, blueberry, toasted marshmallow, and kiwi in the soft finish. City roast will develop a little citrusy chocolate character, while a medium roast will be more tea like, and a full city roast will have some dark chocolate nuance. This blend was crafted for the city roast style and pour over brewing but also makes a good espresso; saying - More Please
