cocoa nibs | stonefruit | hazelnut

We call it “Asian Twist” because it contains beans from the Asian Pacific region. This new espresso creation is a modern twist on your everyday traditional espresso that dictates “no fruity notes” and only “mellow low acidity” for espresso. This new style of espresso is fruity, bright, and sports a medium acidity. It presents a refreshing spin when making your favorite coffee drinks. Jazz up your drinks with nuances of stonefruit, berries, cocoa nibes, and roasted hazelnut. The espresso body is smooth-n-rich reminiscent of a semi-sweet chocolate while the finish sparkles with a medium acidity. This blend will perhaps be best winner for those who like their espresso drinks without lots of syrup additives, like maybe just frothed milk.
