Welcome Guests - A coffee specifically crafted for sweet Southern hospitality where the host is sure the guests have everything they need for comfort. From making home cooked meals, desserts, and snacks to serving our special “Welcome Guests” coffee. The goal is to make your guests as comfortable and welcome as if they were at home showing attentiveness, kindness and graciousness as if they were family. This is an ar form of the rich Southern culture that seems to be fading away today... but this coffee can help. It is welcoming and comfortable, satisfying cravings for a refined luxurious drink. Sweetly juicy and round in structure, silky smooth, and just plain delicious. Nuances of pear, tangerine, white chocolate, cooked apples, with touch of vanilla and honey in the finish.
