nutty | salted caramel | chocolate

Indulge in the satisfying nutty-chocolaty-caramel character of our best-selling Hug-In-A-Mug blend. Our signature blend was crafted to give the feeling of wrapping your taste buds in a warm rich coffee hug. With medium acidity and sweetness it gives a pleasingly rich mouthfeel that blends well with cream or sugar. The leading edge is savory with notes of fresh nuts, mocha, and salted caramel that quickly melts into a lingering milk chocolate and almond finish. Not overly sweet, no fruitiness, just the full rich taste of fresh roasted coffee. The lower acidity is a win for those looking for a coffee that is easier to digest. Simply put, it is much like a warm comfortable blanket on a cold frosty evening earning itself the name - a Hug In A Mug Blend.
