Good Vibes Blend - makes for an exciting cup of coffee... its got the vibes bro... Full bodied with an energizing intensity that calls for keeping a fresh brew perking all day long! The taste is incredible and definitely not your ordinary white collar cup. Good Vibes Blend is bursting with complexity, beginning with sweet savory leading edge that gives way to a satisfying depth of earthy richness and fudgy dark chocolate tones with hints of dark salted caramel, queen ann cherry, and a trace of nutmeg, while top notes are exuding an energizing tart apple note. This all comes together in the cup with "good vibrations" like a well orchestrated musical masterpiece. It is "Good Vibes" my friend!
