Last Frontier - a nod to our Alaskan friends, home of “the last frontier” where the wild rugged mountain terrain creates unforgettable natural beauty and is abundant in wildlife treasures. The rugged nature of this coffee blend is for the adventurer, the explorer at heart, those who like their coffee deeply-full, rich and vigorous in taste. This sturdy blend at espresso roast has a brawny stalwart character as invigorating as the wild mountain air. The intense earthy, dark chocolate nuances come from our Indonesian beans a perfect match for the last frontier. The blend is well balanced by Central American beans nicely rounding out its tenacious character. Leading edge is heartily full bodied with a deep earthy dark chocolate nuance hints of vanilla, cedar, a bit of salted caramel in finish.
