**DATE ROASTED**

**earthy | chocolate | vanilla**

The vote was unanimous, this coffee blend is a “slam dunk”. It was crafted from a solid base of Indonesian beans for those rich earthy chocolaty notes with a few Central American beans added to enable the major air time achievement of this coffee. Effectively surrounding those hearty earthy low acidity tones with a milk chocolaty goodness that makes every sip feel like scoring the winning point. Overall medium cup acidity is perfect for pairing with milk, cream, or syrup additives if you like it that way, but the natural juiciness of the cup makes for a delicious standalone black coffee. This blend has a roast range from medium to espresso. We recommend full city roast brewed in Aeropress with a perforated screen... “just slam dunk it”.
