chocolate | pecan | waffle cone

Like good ole' warm can't miss southern hospitality "thank you dear" or "that's so sweet of you" this coffee wraps your tastebuds in a warm happy glow. Its sweet and rich character has a friendly round complex mouthfeel. There is an unmistakable brightness and clean taste with velvety smoothness that can only come from the dash of African beans in this well formulated blend. Taste nuances of chocolate, southern pecan, and sugar waffle cone. We like this one at medium roast and brewed in the Aeropress. Feel that warm southern comfort in this coffee, drink it black or add cream and/or sweetener if desired. It might have you saying "thank you honey" like they do in the south!
